

USA TEAM TENNIS PROGRAM GUIDE

USA Team Tennis – 18 & Under Division

NTRP	Target Ages
1.0 - 5.0	15 to 18

The 18 & Under Division of USA Team Tennis is similar to the 14 & Under Division except for the target ages and the NTRP skill levels involved. In the 18 & Under Division, players are between 13 and 18 years old and their NTRP skill levels range between 1.0 and 5.0. Again the emphasis is on teamwork and fun. Each team should be made up of both boys and girls grouped according to their NTRP skill level and age.

It is recommended that the 18 & Under Division be divided into two levels of play: Intermediate and Advanced. The Intermediate League would be made up of players at a NTRP skill level of 3.0 or below, while players at a NTRP skill level of 3.5 and above would make up the Advanced League.

Since the 18 & Under Division encompasses all NTRP skill levels, a combination of formats found in both the 12 & Under Division and the 14 & Under Division is recommended. The 3.0 NTRP and below level might use several types of skill competitions found in the 12 & Under Division, while the 3.5 NTRP and above level might use the team format found in the 14 & Under Division. The local league is encouraged to develop a format suited to the community's needs.
